DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

2. Group I, claim(s) 1-27, 37-42, 49-57, and 64-75, drawn to an image-signal processing apparatus for processing an input image signal.
3. Group II, claim(s) 28-36, 43-48, 58-63, and 76-84, drawn to a learning apparatus having prediction-coefficient generating means for generating a set of prediction coefficients for each class, for use in generating an image signal corresponding to the teacher-image signal from an image signal corresponding to the student-image signal, in accordance with values of the pixels extracted by the first pixel-extracting means and second pixel-extracting means.
4. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:
an image-signal processing apparatus/method for processing an input image signal of Group I does not require the specific inventive concept of prediction-coefficient generating means for generating a set of prediction coefficients for each class, for use in generating an image signal corresponding to the student-image signal, in accordance with values of the pixels extracted by the first pixel-extracting means and second pixel-extracting means.
5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 2616

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
